HOW TO READ THE DRAWINGS

The studies in this book were drawn for this portfolio to explain each design. They read the visualisations — they are not surveys, approved drawings or construction documents. Every sheet carries one of these labels in its title block.

REF	LABEL	WHAT IT CLAIMS
DD	Design development diagram · space / section / massing study	Proportions read from the named render; dimensions named, not measured
CD	Concept detail	How the junction seen in a render could be built
RD · RE	Representative detail · example	Generic, typical sizes, tied to no project
MS	Material study	Swatches cropped from renders, colours sampled; products to specify

PROFILE

Imagination.

With the knowledge to make it real.

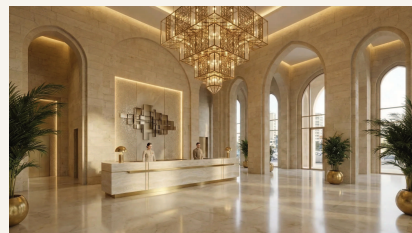

Interior design and interior architecture — from the first concept to the final handover.

Design. Technical development. Execution.

ALAA MASRI · RIYADH, SAUDI ARABIA

SELECTED WORK

01 An arched retreat · p. 09

03 The walnut suite · p. 20

04 The illuminated villa · p. 26

Seven projects · pages 09–37

I'm Alaa Masri, a Lebanese interior designer and interior architect based in Riyadh. Over 15 years of practice across the Gulf and Lebanon have shaped my approach to space.

I work from the first concept through to final handover, connecting design, materials and craftsmanship with the precision that execution demands.

My work spans luxury residential, hospitality, commercial and retail interiors — coordinating clients, consultants, contractors, workshops, factories and site teams so that the design holds from drawing to site.

15+

years in interior design, interior architecture, fit-out and project coordination.

presentation

CONCEPT TO HANDOVER — HOW A PROJECT IS CARRIED

Steps condensed from the professional profile: concept and design development, technical drawings, material selection, BOQ preparation and pricing, supplier and contractor coordination, execution on site.

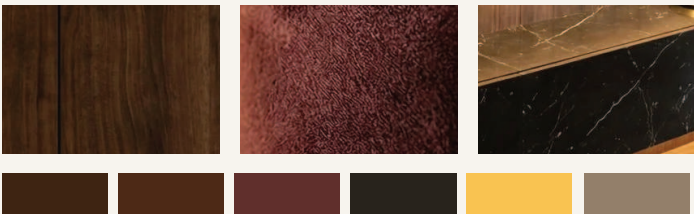

Every space. *Every detail.*

From the first sketch to the final handover — design authorship backed by the technical and site knowledge to deliver it.

01 Interior design

Creative, functional concepts for luxury residential, commercial and retail interiors — planned around the way each space will be lived in and used.

Space planning & furniture layouts · Concept design & mood boards · Material & finish selection · Furniture design & custom joinery

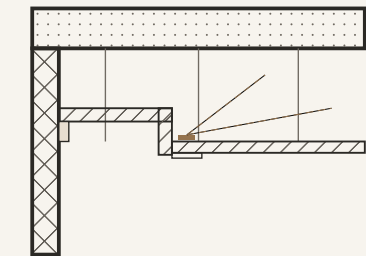

CONCEPT & MATERIAL STUDY

02 Interior architecture

The architectural elements of the interior — entrances, ceilings, partitions and feature walls — designed as one coherent whole.

Entrance & foyer design · Decorative ceilings · Feature walls & partitions · Staircase areas

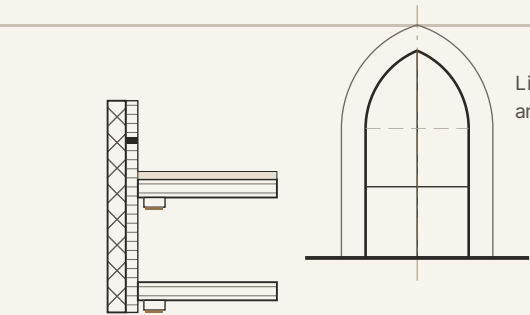

Bulkhead, lighting cove and shadow gap to the wall

REPRESENTATIVE SECTION

03 Technical & shop drawings

Preparing technical drawings and coordinating shop drawings so that the design can be built exactly as intended.

Technical drawings · Shop drawing coordination · Construction & execution details

Lit shelf section · arched opening

REPRESENTATIVE DETAIL

04 BOQ & cost estimation

Bills of quantities, take-offs and cost estimates, with interior works priced and quotations coordinated with suppliers and subcontractors.

BOQ & quantity take-off · Cost estimation & pricing · Supplier quotations

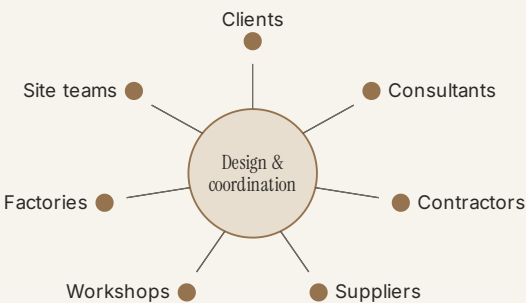

REF	ITEM	UNIT	QTY	RATE
1.01	Gypsum ceiling with lighting cove	m ²	48.0	—
1.02	Veneer wall panelling on battens	m ²	22.5	—
1.03	Built-in wardrobe, glass doors, LED	m	4.8	—

BOQ FORMAT · SAMPLE VALUES

05 Fit-out & coordination

Coordinating clients, contractors, suppliers, factories and site teams, and reviewing material samples against the project specifications.

Joinery & woodwork · Stone, marble & glass · Steel & metal fabrication · Lighting coordination

COORDINATION — FROM THE PROFILE

06 Site supervision

Following execution on site, resolving technical and design issues and maintaining quality from design approval through to final handover.

Site inspections · Quality control · Handover

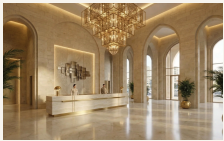

- ☒ Material samples reviewed against specification
- ☒ Shop drawings coordinated for execution
- ☒ Site inspection — quality standards
- ☒ Technical and design issues resolved
- ☒ Detail managed through to handover

REPRESENTATIVE CHECKLIST FORMAT

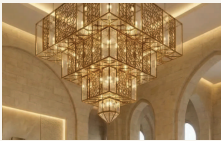

07 3D visualization

Concepts made tangible through 3D modeling, rendering and design presentation — exploring proportion, light and texture before execution begins.

THE SAME RHYTHM, ROOM BY ROOM

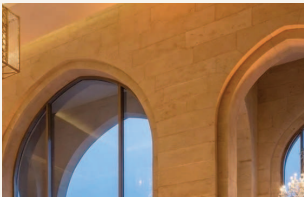

Fig. 04 Banquet hall windows

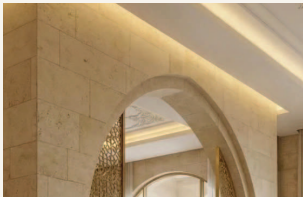

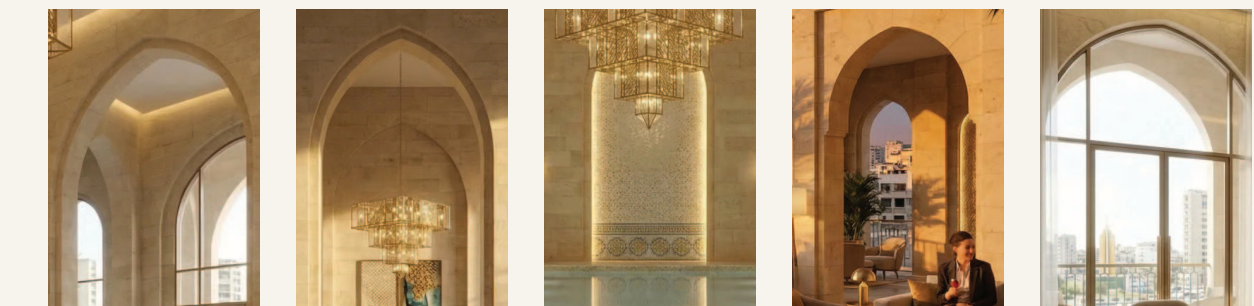

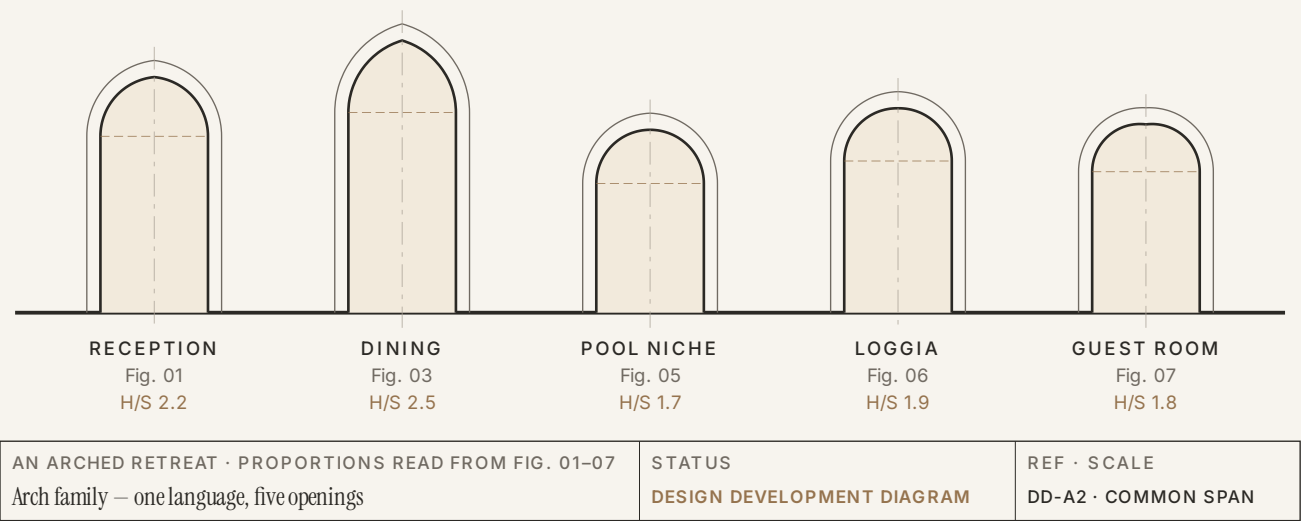

Fig. 02 Guest suite arches

Fig. 05 Pool arcade

Fig. 06 Rooftop loggia

Above: each opening drawn to one span. Below: the same opening as visualised. H/S compares overall height to span, read from the renders with their perspective — a way of showing one arch language adapted to five rooms.

Fig. 02 Guest suite set beneath tall arches, with a lounge area and city views.

SPACES IN THE STUDY	
Reception hall	FIG. 01
Guest suite	FIG. 02
All-day dining	FIG. 03
Banquet hall	FIG. 04
Indoor pool	FIG. 05
Rooftop lounge	FIG. 06
Guest bedroom	FIG. 07

OPENING

Pointed arches in public rooms, rounded niches at the pool, arched glazing in the guest rooms

PIER

Coursed limestone piers and columns carry the rhythm from room to room

LIGHT

Cove light at the ceiling, lit niches and reveals, chandeliers on the axis

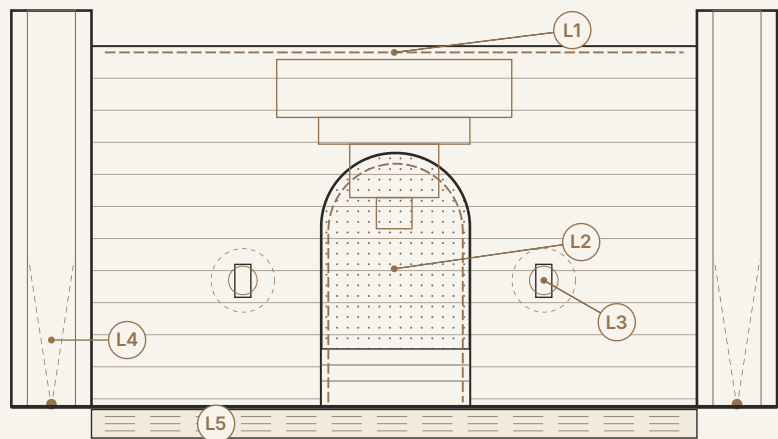

Design intent — to confirm, in Alaa's words.

01 — AN ARCHED RETREAT

Fig. 05 Indoor pool framed by illuminated arched niches and stone columns.

Light as material — *the pool hall.*

LIGHTING LAYERS — AS VISUALISED

- L1 Continuous cove light around the ceiling tray
- L2 Back-lit mosaic niche on the axis
- L3 Wall sconces either side
- L4 Up-light washing each stone pier
- L5 Underwater light in the pool

DESIGN DEVELOPMENT DIAGRAM
DD-A3 is traced from Fig. 05. It reads the lighting visible in the render; it is not a lighting design.

Drawn to be

built.

Managing interior projects end to end — concept and design development, technical drawings, material selection, BOQ preparation, pricing, supplier and contractor coordination, and final execution on site.

REPRESENTATIVE EXAMPLES

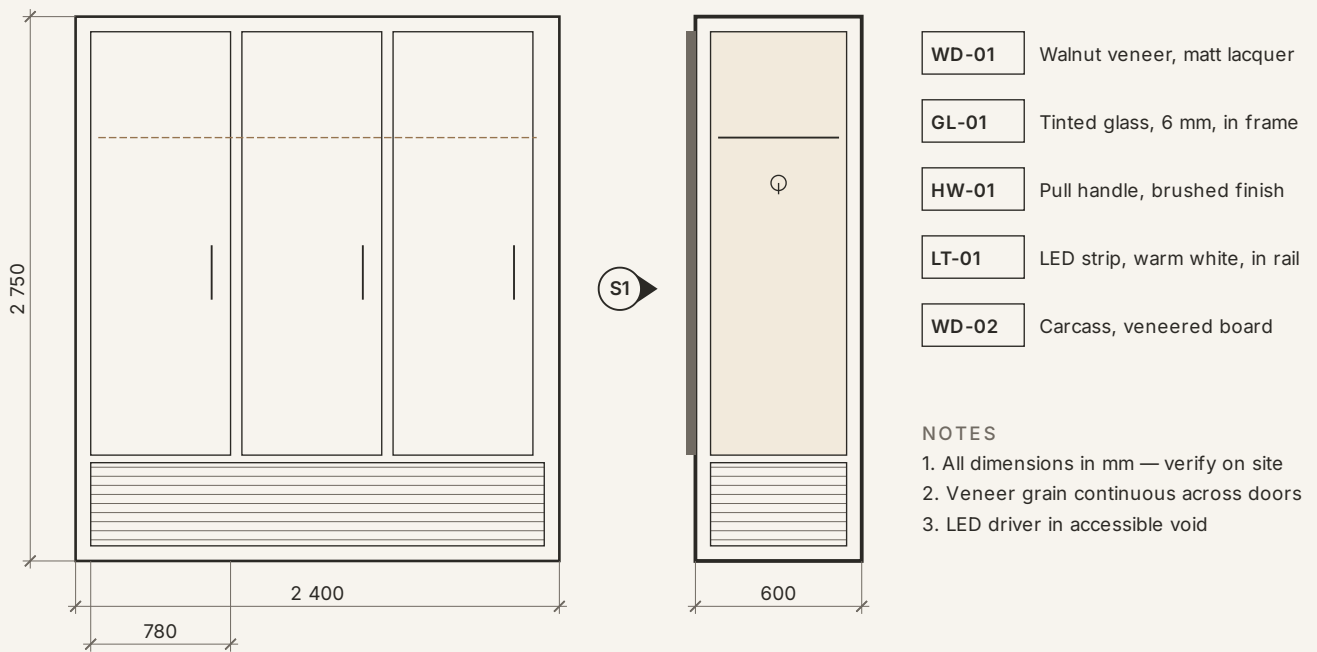

The drawings, schedules and tables on this spread were prepared for this portfolio to show drawing standards and method. They are not construction documents of a specific project; real project documents will be added when supplied.

DRAWING CONVENTIONS

LINE WEIGHTS	HATCHES	SYMBOLS	DIMENSIONING
Cut · 0.5 mm	Masonry / wall	E1 Elevation / section	1 200
Heavy · 0.35 mm	Concrete / gypsum	A Grid reference	mm, to finished faces
Medium · 0.25 mm	Timber / board	3 Finish / note key	CH = clear ceiling height
Fine · 0.13 mm	Upholstery		NTS = not to scale
	Stone / marble
